

TITLE

PRODUCTION OF NOVEL FRUCTOSE POLYMERS  
IN EMBRYOS OF TRANSGENIC PLANTS

ABSTRACT OF THE DISCLOSURE

5        This invention includes a recombinant DNA molecule comprising a sequence  
for a fructosyltransferase capable of producing a novel fructan, a method for  
producing transgenic plants exhibiting a novel fructan, transformed plants and plant  
parts comprising said novel fructan, and products prepared therefrom.
